PERFECTLY CRAFTED

# ARTISAN

## PERFECTLY CRAFTED

The way food tastes and our enjoyment of dining is influenced by more than simply the ingredients it contains. Studies have proved that the colour, texture, shape and even the sound of tableware has a direct impact on flavours and the overall eating experience. Artisan is born out of this philosophy.

Artisan is a beautiful collection of tableware that combines shape, texture and colour in a way that is designed to elevate and enhance the entire dining experience. Inspired by studio pottery and now combining genuine vitrified stoneware with high alumina porcelain, Artisan offers something unique. It combines the look of a hand crafted product with the strength, consistency and durability of tableware produced by truly world class manufacturing processes. This ensures that Artisan is every bit as practical as it is beautiful.

And what makes Artisan even more appealing is its ability to deliver this unique combination at a price that offers you exceptional value for money.

Artisan is perfectly crafted…

# Andromeda Collection

The endless Cornish night skies inspired the use of the Andromeda reactive glaze. A semi matt shimmering black glaze, which subtly varies with shades of petrol blue and granite flecks. Combining a glaze that gives wonderful contrast to your food with fine coupe shapes opens up a world of dramatic food presentation.

The Andromeda collection can be mixed and matched with the other beautiful glazes in the Artisan stoneware collection. All Artisan stoneware collections are produced using the highest quality materials and technical controls to ensure world class performance, amazing value with a crafted studio pottery look and feel.

# SERENE COLLECTION

With a natural and calm tone, the Serene collection of genuine vitrified stoneware from Artisan captures the essence of rustic tableware with more than a hint of elegance. Satin finish glaze in pale sage and with reactive rust flecks, Serene provides a background that compliments, rather than fights, your presentation.

The Serene range from Artisan uses a sweeping coupe shape for maximum flexibility when plating your dishes. The range also features a collection of differing bowl options and beverage items that, together with the natural variations of the glaze, emphasise the studio feel of Serene.

# KERNOW COLLECTION

Granite speckled and satin finished, the Kernow collection uses a reactive grey glaze to ensure a hand crafted feel with every piece being unique. Grey has become the colour of choice to present stunning looking dishes. Add the crafted look with the Kernow reactive speckle together with a collection of fine coupe shapes and your stage is set.

Produced from the highest quality fully vitrified stoneware ensure great performance with a product that will continue to deliver an outstanding look for your diners.

# SHORE COLLECTION

The dramatic coastline of Cornwall and miles of sandy beaches gave rise to the Artisan Shore collection. Produced in the highest quality vitirified stoneware, Shore has a satin finished warm cream base colour with a dense mineral reactive speckle. Each piece is unique, and natural variations in the finish ensures it does not feel mass produced.

The neutral colour of Shore makes it the perfect base for everything on the menu and at the same time allows you to mix with other colours to create your own look. The Artisan stoneware collection is equally at home in the pub or fine dining settings.

# TREVONE COLLECTION

The hand crafted look of studio ceramics at affordable prices. Trevone uses a reactive and speckled blue glaze that pools and varies naturally on every piece. The contrast of a glossy interior, against the matt exterior, add to the natural feel and look of Trevone inspired by coastline line of Cornwall.

Genuine stoneware has a unique feel of being hand crafted and artisanal. The Elm collection uses this to great effect, combining a Scandinavian inspired shape with colour and texture. Elm interiors are a rich sage green with a reactive speckle creating variations in every piece. Add the warm grey matt exterior, innovative stacking shapes and you have the perfect modern look.

# COVE COLLECTION

The warmth and comforting look of the Hygge movement is at the heart of the Cove collection. A grey matt exterior contrasting with a warm white reactive speckled gloss interior applied to distinctive Nordic stacking shapes. Produced from the highest quality fully vitrified stoneware, Cove gives you a genuine honest studio look perfect for presenting high quality dishes in all settings.

The NEW Artisan Onyx collection strikes a dramatic note. The ultra durable Onyx black textured glaze looks stunning with any dish.

Combined with the innovative shapes and embossments from the Artisan collection this new range at last brings a black finish to tableware that can withstand the rigours of a professional kitchen.

ARTISAN

# PEBBLE COLLECTION

The Pebble collection sets a calming tone: perfect for creating a tranquil atmosphere as a backdrop to the whole dining experience.

The combination of cool grey and a semi-matt base creates a striking contrast with the food presented on it, while the ridges in the texture help to elevate and lift the food.

## Lifetime Edge Chip Warranty

Artisan is designed with strength and durability at its heart and a superior level of performance you can rely on.

Using the finest materials and manufacturing techniques ensures we can deliver this without the need to compromise on elegance or style.

We stand behind the performance of Artisan with most of the range covered by a lifetime edge chip warranty.

For full details please see lockhart.co.uk/artisan

## Mechanical Strength

Artisan uses high quality catering grade ceramic bodies, fully vitrified stoneware and high alumina porcelain, to minimise the risk of damage through impact.

## Microwave Safe

Fully vitrified bodies and highly controlled firing temperatures make Artisan completely safe to use in microwave ovens.

## Heat Retention

Consistent thickness and the highest quality materials ensure Artisan products retain their heat effectively and keep food warmer for longer.

## Metal Marking Resistance

Artisan's durability ensures it is highly resistant to metal marking from cutlery or other metal surfaces within the kitchen.

## Dishwasher Safe

Using the best materials and exacting firing controls ensures a highly durable glaze and vitrified body. Artisan products exceed all standards for dishwasher durability.

## Thermal Shock Resistance

Changing temperature rapidly can cause ceramics to crack. Artisan's durable body systems are highly resistant to this so products can be taken directly from the freezer to microwave.

## Abrasion Resistance

Controlling the firing conditions and glazing ensures Artisan is highly resistant to abrasion. Every piece is diamond foot polished.

## Lead and Cadmium Free

All Artisan products are 100% lead and cadmium free. No lead or cadmium is used in the manufacture of Artisan. All Artisan products are tested to the most stringent worldwide standards

# Product Care

## Stacking

To preserve the longevity of the glaze on Artisan products it is important that you always stack items vertically and avoid one item sliding or rubbing against another.

## Chipping

The vast majority of Artisan products (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important that you follow these basic guidelines.

Chipping is normally caused by careless or rough handling during the washing process or afterwards when storing the products. Always handle with care.

When cleaning food off Artisan products always use a specific utensil. Never scrape the product against a bin or receptacle.

## In the dishwasher

- Always rinse Artisan products thoroughly after use and before you load them into the dishwasher.
- Always wash Artisan products separately from other items like glassware, cutlery and cooking equipment.
- Always follow the dishwasher manufacturer's guidelines for the type and amount of detergent to use.
- Also always ensure that you only use the manufacturer's recommended products for cleaning the dishwasher itself.
- Keep the dishwasher properly serviced as per the manufacturer's recommended guidelines.
- If metal marks appear on your Artisan product then clean them with Porcelain Cleanser. Check your cutlery regularly to ensure that none of them have developed rough edges. Also wash any metal surfaces with water and vinegar to remove any metal particles that could be transferred to the Artisan products prior to washing.
