

Degragerm 24™ Shield

powered by APT technology

McLaughlin

Keep surfaces protected for up to 24 hours for added peace of mind between cleans!

You can't be everywhere at once, but the surface can be protected every time it is touched. With Degragerm 24™ Shield you get continuously active disinfection, meaning you can protect your customers, staff and your facility with confidence and control.

Degragerm 24™ Shield is a ready-to-use cleaning disinfectant which delivers 24 hours residual antimicrobial protection for small high touch surfaces.

- Protects surfaces from bacteria and viruses (including coronavirus and monkey pox) for up to 24 hours
- Ideal for high touch points in communal areas where multiple people are likely to touch the surface; like door handles, light switches, lift buttons, vending machines, transport rails...
- The disinfectant remains effective for up to 24 hours even when the surface is repeatedly contaminated with soil
- Labour savings as you can reduce the frequency of cleans
- Promotes sustainable cleaning, allowing the use of fewer products and less time spent on disinfecting frequently touched surfaces
- Easy to apply, ready to use
- Efficacy proven by compliance with European norms EN 13727, EN 13624, EN 14476, EN 16615, EN 1276, EN 1650, EN 13697, EN 14476 (MVA), EN 16777 (MVA), PAS2424

Disinfects in 5 minutes

Including enveloped virus

BSI PAS 2424 Compliant

High touched surfaces
