

SAFETY DATA SHEET CLEANLINE THICK BLEACH 5L

Commission Regulation (EU) No 2015/830 of 28 May 2015.

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	CLEANLINE THICK BLEACH 5L	
Product number	800-116-4001	
Internal identification	CL3014	
Container size	5L	
UFI	UFI: PHK2-EWA1-DH7Y-76XP	
1.2. Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses	Cleaning agent. Disinfectant.	
Uses advised against	Use only for intended applications.	
1.3. Details of the supplier of the safety data sheet		
Supplier	PrimeSource, PO BOX 15247, Birmingham, B23 3HN, Tel: +44 (0) 8085 749 312	
	PrimeSource, Unit D9, Horizon Logistics Park, Swords, Co.Dublin, K67 N4T2, Ireland - Tel: +353 (0)1 630 1800 info@prime-source.co.uk	
Contact person	For content of safety data sheet:, info@prime-source.co.uk or TEL: - 08085 749312	
1.4. Emergency telephone number		
Emergency telephone	Prime Source: 01865 407333 - FOR MEDICAL EMERGENCY USE ONLY	
National emergency telephone number	In case of a medical emergency following exposure to a chemical call NHS Direct in England or Wales 0845 46 47 or NHS 24 in Scotland 08454 24 24 24	
SECTION 2: Hazards identification		
2.1. Classification of the substa	ance or mixture	
Classification (EC 1272/2008)		
Physical hazards	Met. Corr. 1 - H290	
Health hazards	Skin Corr. 1C - H314 Eye Dam. 1 - H318	
Environmontal bazarda	Aquetia Aguta 1 H400 Aquetia Chronia 2 H411	

2.2. Label elements

Hazard pictograms

Signal word	Danger
Hazard statements	H314 Causes severe skin burns and eye damage. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects. H290 May be corrosive to metals.
Precautionary statements	 P273 Avoid release to the environment. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER/ doctor. P405 Store locked up. P501 Dispose of contents/ container in accordance with national regulations.
Supplemental label information	EUH206 Warning! Do not use together with other products. May release dangerous gases (chlorine).
UFI	UFI: PHK2-EWA1-DH7Y-76XP
Contains	SODIUM HYPOCHLORITE, C12-14-ALKYL ETHER SULFATES
Biocide Labelling	This product contains substances with biocidal properties., Contains active substance: Sodium Hypochlorite, 4.37%, Read attached instructions before use.
Detergent labelling	< 5% anionic surfactants, < 5% chlorine-based bleaching agents, < 5% perfumes
Supplementary precautionary statements	 P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P103 Read label before use. P234 Keep only in original packaging. P260 Do not breathe vapour/ spray. P264 Wash contaminated skin thoroughly after handling. P363 Wash contaminated clothing before reuse. P390 Absorb spillage to prevent material damage. P391 Collect spillage.

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

SODIUM HYPOCHLORITE		4.4%
CAS number: 7681-52-9	EC number: 231-668-3	REACH registration number: 01- 2119488154-34-XXXX
M factor (Acute) = 10	M factor (Chronic) = 1	
Classification Met. Corr. 1 - H290 Skin Corr. 1B - H314 Eye Dam. 1 - H318 Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410		
C12-14-ALKYL ETHER SUL	FATES	1-5%
CAS number: 68891-38-3	EC number: 500-234-8	REACH registration number: 01- 2119488639-16-XXXX
Classification Skin Irrit. 2 - H315 Eye Dam. 1 - H318 Aquatic Chronic 3 - H412		
SODIUM HYDROXIDE		<1%
CAS number: 1310-73-2	EC number: 215-185-5	REACH registration number: 01- 2119457892-27-XXXX
Classification Met. Corr. 1 - H290 Skin Corr. 1A - H314 Eye Dam. 1 - H318		
The Full Text for all R-Phrases	s and Hazard Statements are Displayed in Se	ection 16.
SECTION 4: First aid measure	98	
4.1. Description of first aid me	asures	
Inhalation	Move affected person to fresh air at once. C Rinse nose and mouth with water.	Get medical attention if any discomfort continues.
Ingestion	-	ughly with water. Give plenty of water to drink. et medical attention if any discomfort continues.

 Show this Safety Data Sheet to the medical personnel.

 Skin contact
 Remove contaminated clothing. Get medical attention if irritation persists after washing. Rinse immediately with plenty of water.

Eye contactRemove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15
minutes. Get medical attention if irritation persists after washing. Show this Safety Data Sheet
to the medical personnel. Rinse immediately with plenty of water.

4.2. Most important symptoms and effects, both acute and delayed

InhalationThe product is not believed to present a hazard due to its physical nature. Prolonged or
repeated exposure may cause the following adverse effects: Irritation.

Ingestion	This product is corrosive. May cause chemical burns in mouth and throat. May cause stomach pain or vomiting.
Skin contact	Causes severe burns. Prolonged contact causes serious tissue damage.
Eye contact	This product is corrosive. May cause chemical eye burns. Corneal damage. Severe irritation, burning, tearing and blurred vision.
4.3. Indication of any immediat	e medical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting meas	ures
5.1. Extinguishing media	
Suitable extinguishing media	The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Foam, carbon dioxide or dry powder.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fro	m the substance or mixture
Specific hazards	Contact with acids liberates toxic gas.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Toxic gases or vapours. Chlorine. Hydrogen chloride (HCI). Oxides of carbon.
5.3. Advice for firefighters	
Protective actions during firefighting	Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
	clothing.
for firefighters SECTION 6: Accidental release	clothing.
for firefighters SECTION 6: Accidental release	clothing.
for firefighters SECTION 6: Accidental release 6.1. Personal precautions, prot	clothing. e measures ective equipment and emergency procedures Avoid contact with skin, eyes and clothing. For personal protection, see Section 8.
for firefighters SECTION 6: Accidental release 6.1. Personal precautions, prot Personal precautions	clothing. e measures ective equipment and emergency procedures Avoid contact with skin, eyes and clothing. For personal protection, see Section 8.
for firefighters SECTION 6: Accidental release 6.1. Personal precautions, prot Personal precautions 6.2. Environmental precautions	clothing. e measures ective equipment and emergency procedures Avoid contact with skin, eyes and clothing. For personal protection, see Section 8. Collect and dispose of spillage as indicated in Section 13. Do not discharge into drains or watercourses or onto the ground.
for firefighters SECTION 6: Accidental release 6.1. Personal precautions, prot Personal precautions 6.2. Environmental precautions Environmental precautions	clothing. e measures ective equipment and emergency procedures Avoid contact with skin, eyes and clothing. For personal protection, see Section 8. Collect and dispose of spillage as indicated in Section 13. Do not discharge into drains or watercourses or onto the ground.

For personal protection, see Section 8. Collect and dispose of spillage as indicated in Section 13. Do not discharge into drains or watercourses or onto the ground. containment and cleaning up Stop leak if safe to do so. Flush away spillage with plenty of water. Absorb spillage with non-combustible, absorbent material. Do not discharge into drains or watercourses or onto the ground. Absorb in vermiculite, dry sand or earth and place into containers. Do not use sawdust or other combustible material. Provide adequate ventilation. Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or watercourses. S For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.
for firefighters SECTION 6: Accidental release 6.1. Personal precautions 6.2. Environmental precautions Environmental precautions 6.3. Methods and material for of Methods for cleaning up 6.4. Reference to other sections Reference to other sections	 clothing. a measures ective equipment and emergency procedures Avoid contact with skin, eyes and clothing. For personal protection, see Section 8. Collect and dispose of spillage as indicated in Section 13. Do not discharge into drains or watercourses or onto the ground. containment and cleaning up Stop leak if safe to do so. Flush away spillage with plenty of water. Absorb spillage with non-combustible, absorbent material. Do not discharge into drains or watercourses or onto the ground. Absorb in vermiculite, dry sand or earth and place into containers. Do not use sawdust or other combustible material. Provide adequate ventilation. Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains, sewers or watercourses. s For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.

Advice on general occupational hygiene	Good personal hygiene procedures should be implemented. Do not eat, drink or smoke when using this product. Provide eyewash station. Wash promptly with soap and water if skin becomes contaminated. Wash contaminated clothing before reuse. Use appropriate skin cream to prevent drying of skin.	
7.2. Conditions for safe storage, including any incompatibilities		
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Protect from light. Store away from the following materials: Acids. Store at temperatures between 5°C and 25°C. Keep out of the reach of children.	
7.3. Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure control	ECTION 8: Exposure controls/Personal protection	
8.1. Control parameters Occupational exposure limits SODIUM HYPOCHLORITE

DNEL	Industry - Inhalation; Long term local effects: 1.0 mg/m ³
	Consumer - Inhalation; Long term local effects: 1.0 mg/m ³
8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. Personal protective equipment for eye and face protection should comply with European Standard EN166.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. It is recommended that gloves are made of the following material: Polyvinyl chloride (PVC). Rubber (natural, latex). To protect hands from chemicals, gloves should comply with European Standard EN374.
Other skin and body protection	Wear appropriate clothing to prevent repeated or prolonged skin contact. Use appropriate skin cream to prevent drying of skin.
Hygiene measures	When using do not eat, drink or smoke. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Use appropriate skin cream to prevent drying of skin.
Respiratory protection	Respiratory protection not required.
Environmental exposure controls	Avoid releasing into the environment.
SECTION 9: Physical and c	hemical properties
9.1. Information on basic ph	ysical and chemical properties

Appearance	Viscous liquid.
Colour	Yellow. Clear.
Odour	Citrus. Chlorine.
Odour threshold	Not applicable.
рН	pH (concentrated solution): >11
Flash point	This product does not sustain combustion.

Relative density	1.070 typically @ 20°C	
Solubility(ies)	Soluble in water.	
Viscosity	300-450 cP @ 20°C	
Explosive properties	There are no chemical groups present in the product that are associated with explosive properties.	
Explosive under the influence of a flame	Not considered to be explosive.	
Oxidising properties	There are no chemical groups present in the product that are associated with oxidising properties.	
Comments	Information given is applicable to the product as supplied.	
9.2. Other information		
Other information	Not relevant.	
SECTION 10: Stability and rea	activity	
10.1. Reactivity		
Reactivity	The reactivity data for this product will be typical of those for the following class of materials: Acids. Alkalis. Oxidising materials.	
10.2. Chemical stability		
Stability	Decomposes over time. Factors that increase the rate of decomposition: increase in temperature, certain metallic impurities, high initial concentration, fall in pH below 11and exposure to light.	
10.3. Possibility of hazardous	reactions	
Possibility of hazardous reactions	Generates toxic gas in contact with acid. Chlorine.	
10.4. Conditions to avoid		
Conditions to avoid	Avoid exposure to high temperatures or direct sunlight.	
10.5. Incompatible materials		
Materials to avoid	Acids. Ammonia. Organic compounds. Some metals. Nickel. Iron. Copper.	
10.6. Hazardous decomposition	on products	
Hazardous decomposition products	Chlorine. Hydrogen chloride (HCl). Oxides of the following substances: Chlorine. Hypochlorous acid. Sodium chlorate	
SECTION 11: Toxicological information		
11.1. Information on toxicologi		
Toxicological effects		
Toxicological effects	Information given is based on data of the components and of similar products.	
Other health effects		
-	Information given is based on data of the components and of similar products.	
Other health effects Acute toxicity - oral	Information given is based on data of the components and of similar products. Does not contain any substances known to be carcinogenic.	

Notes (inhalation LC₅₀)	Based on available data the classification criteria are not met.	
Skin corrosion/irritation Skin corrosion/irritation	Corrosive to skin.	
Serious eye damage/irritation Serious eye damage/irritation	Corrosivity to eyes is assumed.	
Respiratory sensitisation Respiratory sensitisation	Not sensitising. Based on available data the classification criteria are not met.	
Skin sensitisation Skin sensitisation	Not classified. Based on available data the classification criteria are not met.	
Germ cell mutagenicity Genotoxicity - in vitro	Does not contain any substances known to be mutagenic.	
Carcinogenicity Carcinogenicity	Does not contain any substances known to be carcinogenic.	
Reproductive toxicity Reproductive toxicity - fertility	Does not contain any substances known to be toxic to reproduction.	
Specific target organ toxicity -	single exposure	
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.	
Specific target organ toxicity -	repeated exposure	
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.	
Inhalation	The product is considered to be a low hazard under normal conditions of use. Prolonged or repeated exposure may cause the following adverse effects: Irritation.	
Ingestion	Small amounts may cause serious damage. May cause chemical burns in mouth, oesophagus and stomach. Stomach pain. Nausea, vomiting. Diarrhoea.	
Skin contact	Causes severe skin burns and eye damage. Prolonged or repeated exposure may cause the following adverse effects: Dryness and/or cracking. Redness. Irritation. Chemical burns.	
Eye contact	Causes severe skin burns and eye damage. May cause temporary eye irritation. May cause chemical eye burns.	
Toxicological information on ingredients.		
SODIUM HYPOCHLORITE		
Acute toxicity - oral		
Acute toxicity ora mg/kg)	al (LD₅o 8,910.0	
Species	Rat	
Notes (oral LD₅₀)	REACH dossier information.	
ATE oral (mg/kg	8,910.0	
Acute toxicity - d	ermal	

Acute toxicity dermal (LD₅₀ 2,001.0 mg/kg)

	Species	Rabbit
	ATE dermal (mg/kg)	2,001.0
	Skin corrosion/irritation	
	Animal data	Corrosive to skin. REACH dossier information. Dose: LD50 = 20g/kg bw, 2 days, Rabbit
	Serious eye damage/irritat	ion
	Serious eye damage/irritation	Corrosivity to eyes is assumed.
	Respiratory sensitisation	
	Respiratory sensitisation	Not sensitising.
	Skin sensitisation	
	Skin sensitisation	Not sensitising.
	Germ cell mutagenicity	
	Genotoxicity - in vivo	REACH dossier information. Negative.
	Carcinogenicity	
	Carcinogenicity	Based on available data the classification criteria are not met.
	Reproductive toxicity	
	Reproductive toxicity - fertility	REACH dossier information. No evidence of reproductive toxicity in animal studies.
SECTION 12: Ecological information		
Ecotoxicity	-	duct contains a substance which is very toxic to aquatic organisms and which may ong-term adverse effects in the aquatic environment.
12.1. Toxici		
<u>12.1. Toxici</u> Toxicity	ty	duct contains a substance which is harmful to aquatic organisms.

12.2. Persistence and degradability

Persistence and degradability The product contains inorganic substances which are not biodegradable. May accumulate in soil and sediment. Substantially removed in biological treatment processes. The surfactant(s) contained in this product complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them at their direct request, or at the request of a detergent manufacturer.

Ecological information on ingredients.

SODIUM HYPOCHLORITE

	SODIUM HYPOCHLORITE
Stability (hydrolysis)	Water - Half-life 10% NaoCL: 220 days @ 25°C - Half-life 5% NaOCL: 790 days @ 25°C REACH dossier information.
Biodegradation	The methods for determining the biological degradability are not applicable to inorganic substances.
12.3. Bioaccumulative potential	
Bioaccumulative potential No data	available on bioaccumulation.
Ecological information on ingredients.	
	SODIUM HYPOCHLORITE
Bioaccumulative potential	Low potential for bioaccumulation.
Partition coefficient	log Kow: -3.4174 REACH dossier information.
12.4. Mobility in soil	
Mobility The pro	duct is water-soluble and may spread in water systems.
Ecological information on ingredients.	
	SODIUM HYPOCHLORITE
Henry's law constant	0.076 @ 20°C
12.5. Results of PBT and vPvB assessn	nent
Results of PBT and vPvB This pro assessment	duct does not contain any substances classified as PBT or vPvB.
Ecological information on ingredients.	
	SODIUM HYPOCHLORITE
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current EU criteria.

12.6. Other adverse effects

Other adverse effects There is evidence that sodium hypochlorite inhibits the aerobic treatment process at a concentration of 0.05 mg/l.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

General information	When handling waste, the safety precautions applying to handling of the product should be considered.
Disposal methods	Dispose of waste product or used containers in accordance with local regulations
